**DISCUSSION:** The Specialty Polymers site is located in Houston, Texas. The site is an inactive, abandoned polyurethane foam manufacturer. A citizen identified the site in 1986. The Texas Water Commission conducted a 1,000 drum removal. No other waste remained on-site.

Therefore, Site Assessment Section recommends that the site receive a No Further Remedial Action Planned under Superfund (NFRAP) Decision. The site has been referred to the Texas Natural Resource Commission for possible assessment under the state regulatory authorities.
